

## 100/Not Covered \$2,750 Coinsurance Plan

# Understanding Your Benefits

### Deductibles

You pay the following amounts each year before your health plan starts to pay toward the cost of covered services:

- \$2,750 per individual plan;  
\$5,500 per family plan in network
- Not covered per individual plan;  
Not covered per family plan out of network

The deductible has a hybrid calculation which means that all deductible amounts paid count toward the family deductible, but the individual will never pay more than their individual deductible amount.

### Out-of-pocket Limits

The following is the maximum you would pay out of pocket for essential health benefits each year (including medical and pharmacy copayments, deductibles and coinsurance).

- \$2,750 per individual plan;  
\$5,500 per family plan in network
- Not covered per individual plan;  
Not covered per family plan out of network

The out-of-pocket limit has a hybrid calculation which means that all out-of-pocket amounts paid count toward the family out-of-pocket limit, but the individual will never pay more than their individual out-of-pocket amount

### Please note:

The deductible and out-of-pocket limits are separate for in-network and out-of-network services.
